

Requirements for New Playmates

Here are the requirements we will be looking for when enrolling new doggy playmates.

Age

All dogs enrolled in basic daycare must be at least three months of age or older. Puppies in the Play Pen Program must be at least 8 weeks old.

Sex

All dogs enrolling in basic daycare must be spayed or neutered (except for puppies under six months who are enrolled in, or have completed, the Play Pen Program).

Canine Vaccinations

Owners will be required to provide proof of current vaccinations (bordetella, rabies, and DHLPP vaccinations). Flea and heartworm preventatives are encouraged but not required. This should be discussed with your veterinarian. We also support and encourage Titters blood test for all dogs as an alternative to proof of vaccinations.

Pet Health

All dogs must be in good health. Owners must certify that their dog(s) are in good health and have not been ill with a communicable disease within the last 30 days.
